A delightful collection...which...uses...a creative way to enhance...work with clients....[The] stories...each mak[e] a point....[W]ell-written, and pleasurable to read. (The Milton H. Erickson Foundation Newsletter, Janet L. Detzel)

Lee Wallas, who became a psychotherapist after a long and successful career as an artist, is a clinical social worker in private practice with individuals and families in St. Louis.

I really like this book. The stories are just the right length to share with my clients. I work in a Substance Abuse treatment center and I like to read stories that apply to the clients and discuss them. Great way to begin a discussion about issues.

It flows, it appears very creative, and so forth. The kind of book each time I read it evokes and triggers information for the therapeutic conversations between clients and psychotherapists.

Gorgeous. I will be reading and ready for more feedback afterwards.

I recorded these tales on a cassette tape for my daughter as a collection of bedtime stories. She played them before she went to sleep for years. They are useful on so many levels.

Excellent book for hypnotherapists...great use of story!

Book arrived quickly and as described.

Very helpful book for my counseling practice. It has helped my clients to process their feelings from past childhood abuse.

Another way to work with my clients and help them understand life situations. I would recommend this to other clinicians! A great find!
