Win Your Lawsuit: Sue In California Superior Court Without A Lawyer (Win Your Lawsuit: A Judges Guide To Representing Yourself In California Supreior Court)

Synopsis

Represent yourself in California Superior Court for a case worth up to \$25,000! Some cases are too big for small claims court and too small to interest a lawyer. But *Win Your Lawsuit* takes you step by step through the entire process of a limited jurisdiction case in California Superior Court. Take on common types of civil court cases worth up to \$25,000, including: contract disputes personal injuries property damage cases business disputes Whether you're bringing the suit or defending against one, this plain-English legal guide shows you how to prepare a complaint, file and serve papers, participate in settlement negotiations, present a case and much more. The 4th edition is completely updated and provides all the forms you need. Written by Roderic Duncan, a retired California Superior Court judge, this book includes the legal insight and practical tips that only a judge with over 25 years of experience can provide.

Roderic Duncan was appointed to the California Municipal Court in 1975, and he was elected to the California Superior Court bench in 1987. Over the years, he has been a lecturer and faculty member at two dozen educational programs for judges. In 1990, he was chosen the Judicial Officer of the Year by the California State Bar, Family Law Section. Since retiring from the bench in 1995, he has been doing private judging and mediation.

This is excellent for uncomplicated civil cases in your County's California State Superior Court.As

this judge-author knows, there is a lot more that can happen in court than what one can prepare for with only this book. Having said that, if your case is fairly uncomplicated and you are not facing an army of opposing attorneys representing a large financial institution or corporation, but instead a small local contractor who ripped you off, or some other simple, civil issue, this is exactly what you need. If you have a tough case and there is literally no money for legal help and no attorney willing to do it pro bono (free), then this book is certainly your best bet. It will not give you case law or codes for your particular issues, but it will show you step by step how to get started and how to proceed. You will also need to get a copy of your local court's rules as those can and do vary or change. Get familiar with code and case law research. has books on the subject. Learn to use the law library and get help from the librarian. If your case gets removed to Federal Court, this book will no longer help you. Unscrupulous opposing attorneys may NOT give you notice, but will file a proof of service saying they did give you notice of removal. Their next step is to file a motion to dismiss your case with prejudice, and hope you don't fight it because you don't even know the case was removed to federal court. This really is an excellent book for most simple civil cases and better than operating with no clue when you are bereft of legal representation and have no choice but to deal with a case on your own. The only way to make sure you lose is to give up without a fight. At least there is a chance you will win, if you at least try. Look at what is at stake and choose either to walk away or turn and fight with what you do have. Win Your Lawsuit gives you detailed, step by step guides, forms and examples of the forms already filled in with guides for each section and pleading documents that show how the headings should look and basic pleading format and examples of wording for some issues. This book is much easier to follow than the walk in the dark I got when I visited my county's self-help legal center. There really is a legal crisis going on. Most people cannot afford attorneys fees or they can afford them for a little while, but not enough to maintain, much less win a case. If you must go to court without an attorney, this is the best basic guide I have found. This book is a strong tool for many common cases and a good guide if you cannot pay for an attorney. It is strictly for CIVIL cases, NOT for DUI/criminal cases, or traffic tickets. Get the latest version of this book. It is worth the price.

Read this book and you can represent yourself if you have a need to sue in court. I am almost ready to put what I have learned to use in small claims court. I had talked to an attorney about representing me and he recommended this book and told me I could save thousands of dollars by reading and using this book to represent myself and after reading the book I'm confident that I can do it. It spells out everything one must do, all the forms you need to file, where and when you need

to file them, etc., etc. It guides you through the entire process. Additionally, I got it much cheaper here at than other sites I looked at.

It is a good book to understand the formalities of the court. I purchased this book in order to replace an old edition when there used to be municipal courts in California. I am using this book as a reference book for my real estate activities.

nice book but i not read.because my situation is okay now

Extremely helpful, complete, relatively easy to read. It's true to its title and a very valuable resource.

If you read carefully and follow the directions precisely, this book is extremely helpful and may preclude the necessity of hiring a lawyer to file a suite. It worked for me.

Came as expected. Just what was ordered.
