This is a cute gift for your hubby or long-time partner. I filled it out pretty fast except for the photos you are supposed to add which took some time to print down & attach with glue dots. I think I got as much out of it as he did. It kind of reminds you what you love about your partner & what made you choose them; that helps draw you nearer. We all need to take such inventory a little more often.

Tomorrow is never promised so I like the idea of letting my husband know how wonderful he is & how much I love him right now -- not waiting for some big anniversary or life event to do it. We have two young children and not much time for each other or ourselves to sit around & say all we'd like. This is a great way to say the things we all should but just don't in busy daily life. Now it's out there & he can look at it whenever he needs to know he's loved & appreciated.

I bought this book to give my boyfriend for father's day. I filled it out as much as I can before giving it to him. I'm a writer so I find it easier to express my emotions through writing and it's hard for me to express emotions verbally. This book was the perfect gift for him to really know how I feel about him in many different aspects. He loved it!

I bought this book for my girlfriend and gave it to her for our one year anniversary. She loved it! It was different from all the other gifts I had given her. Though the book is fairly small, it took me about a month to finish filling it out. It's filled with questions and fill in the blanks and makes you reflect on your relationship with your partner. Every single page was worth filling out. Though I feel like the book is geared more towards relationships with several years, it can work for any relationship considering the writer is willing to put the effort. But anyone willing to do so will not regret it. Even though it did take me longer than expected to finish it, I had an amazing time through out. I think it is meant to take the writer some time to go through it all, but only because it causes much reflection. With every question I would stop to think of the perfect answer and in doing so, it would cause my mind to think back to so many moments and memories. Not only does the person getting the gift receive the benefits, but also the person writing it. I think the hardest part about filling the book out is staying focused. The questions ask you something in specific but you can't help but to think of so many things. Once I got really into it, I didn't want to finish the book. At times my mind would wander off and think back to so many moments. Anyone who wants to fill this book out will catch themselves day dreaming, smiling, frowning, laughing, throughout the whole process. This book will make you reflect on many aspects of your relationship and you'll realize just how much you and your partner have been through. If you think this is a nice simple gift, you will be surprised. It is an amazing gift for the person you love. But I encourage anyone to get it also because you won't regret the insightfulness it'll cause, not just for the person reading it, but for the person writing it through out the whole time. My girlfriend confessed it made her think back to so many moments we've shared together, the same ones I thought about while writing. It's nice moment when you both get together and share the different experiences you both got from the book. The reader and the writer wil both

enjoy this book. My girlfriend has never really liked reading. But hey, she reads this book over and over. It's a great gift for your significant other. Tell them what you love about them! You won't regret it.

if you're looking for this to be something you can do in a couple days or weeks, buy something else. This is 2+ months at minimum. I bought this in early November for a Christmas present but had to abandon this and get something else.

I am super excited about this book. The content is great, however the cover is dirty and scratched. I bought it brand new, but it is very dingy looking. I am very disappointed.

It's a very cute book. It is a hard cover and is medium sized. A lot of the questions are repetitive, but it also challenges you to think about situations or moments you shared, but in different ways. This book is definitely for couples that have been together AT LEAST 2 years or more. Anytime less than that and you may not even be able to finish filling out the book, without leaving a lot of blanks. It is also over 100 pages. So if you're thinking about giving this as a gift to someone on a specific date; make sure to purchase it way ahead of time. So you have time to really sit down and put effort into filling it out. Because it will take some time; as it should.

My husband loved this! I got it for our anniversary and had such a fun time filling it out! The questions are thought provoking and make you realize just how much you love your significant other. My hubby now takes it with him everywhere he goes. I recommend, a great buy for an anniversary, Valentine's day, or just to remind your partner how much they mean to you!

I bought this book for my husband for our first Valentine's Day as a married couple. He's one of those guys that is just hard to shop for and I wanted something beyond the run-of-the-mill Valentine's Day gift of candy or a card. It took about a month to fill out the whole book, and I added pictures and mementos. I found a few other things to go with it, but this was the centerpiece gift. And he loved it. I think he was very touched as he sat right down to read it. And I had a blast filling it out. It was so much fun reminiscing over our years together and remembering special moments, and even thinking about things that I may have never told him about how much he means to me. I don't think you can go wrong with this book as a gift. Who doesn't want to hear about all the reasons someone else adores you?? Not only hear it, but have it written out in their handwriting to keep

forever. Perfect.
