Diamonds And Pearls

Synopsis

Belgian photographer Marc Lagrange has quickly gained a reputation as one of the most original and talented erotic photographers around. Taking a distinctive approach to setting voluptuous scenes, Lagrange meticulously composes timeless settings--with each location and prop carefully chosen to enhance the romantic and revealing mood. Building trust and chemistry with his models, Lagrange is daring but never crosses into mere titillation. The tension is palpable and a sense of mystery pervades each elaborate vignette. Combining the glamour of classic Hollywood with the sensibility of an Old Master painting, all his alluring heroines seem at ease and approachable--yet just tantalizingly out of reach.

Buy it now while you can - gorgeous book, the photos and previews here do not do it justice. VERY large and very heavy book, EXTREMELY good printing quality, photos included in this are hauntingly beautiful and will definitely make this a valuable book in aftermarket trading once it's out of print. ALSO, it's a very heavy book, so the first copy I received was badly damaged in shipping, shipped a replacement right away and I have to give them excellent marks for replacing the damaged book so quickly.

Marc Lagrange is one of the most prominent erotic photographers, and he does not disappoint in this collection. His books are very limited in print, and I would highly recommend getting this while

the supplies last! The book is of fantastic quality, with high saturation prints that are rich and not overly shiny, and the photographs themselves are fantastically beautiful and melancholic in some angles. The juxtaposition of sexuality, emotion, and the raw passion of nudity is all represented in a dark setting, which amplifies not only the models, but the fact that desires can often be illuminated in dark settings through proper exposure (no pun intended). While the title suggests all glitter, the depth and breadth of the photographic talent Lagrange exudes is stunning. Highly recommended!

These photos are routinely genuine and raw in nature. The compositional perspective alone is enough to WOW everybody.

I thoroughly enjoy this book. Opens up a world of possibilities. Has inspired me to create a whole new body of work.

Love this book! If you like Lagrange, this is a must have!

Received it with dents, but the book is very nice and one of the best in my collection, you won't miss it!!

This is an interesting book, full of enticing images. Not all approach Art, as far as photography is concerned, yet many succeed. If you are a photographer or an Artist, you should buy this book. If you are an Aristocrat; a Master of Industrial Concerns, or a seeker of opening the doors of perception, or a common peep-show pervert for that matter, you should buy this book. A helpful how-to book to help set the mood and feel to film, photograph or most importantly participate in your Own Witches Ritual of the mind, in Ultra Purple tones of the Monarch. Very fast delivery! The book is very good! Recommend photographers and fans of female beauty!
