How could the most comprehensive book on bilingual education get even better? The master of writing on bilingual education, Baker, collaborates with a younger master, Wright. The blending of the clear voices of these two scholars, grounded in experience in different geographical regions is

powerful. This new edition keeps what has made this book a classic in the bilingual education field, and enlarges it. It presents a vision of the present and future of bilingual education, without dismissing the understandings that we have built across the years. (Ofelia García, The Graduate Center, City University of New York, USA)

Colin Baker is Emeritus Professor at Bangor University, UK. He is the author of research publications, books for parents and an encyclopaedia, all on the subject of bilingualism, as well as the 5 previous editions of this textbook. He is the former co-editor of the Bilingual Education and Bilingualism books series for Multilingual Matters. Wayne E. Wright is Professor and Barbara I. Cook Chair of Literacy and Language, Purdue University, USA. He has published extensively on bilingual education and bilingualism, and is the co-editor of the Journal of Language, Identity, and Education and the Bilingual Education and Bilingualism books series for Multilingual Matters.
