Yoga Breathing

Synopsis

Wh The Sanskrit word pranayama means "to release life energy from its bounds." When practiced correctly, this powerful form of yogic breathwork has the ability to reveal the intricate web of your thoughts, physiology, and energetic patterns-to quiet your mind and heighten receptivity-and to open you to "the intrinsic radiance of Being." On *Yoga Breathing*, Richard Freeman, director of the Yoga Workshop in Boulder, Colorado, invites you to learn the essential principles and techniques of pranayama, including: How to identify and observe your "internal breath" * Dristi gazing/breathwork to tap into your body's central energetic axis * Ujjayi breathing to free prana (your life energy) "The tree of breath" practice Specific guidance for lying and seated pranayama, and much more. Every breath you take, teaches Freeman, can serve as a guiding thread into the depths of yoga-a place of freedom and immediacy of awareness that begins on the practice mat and gradually extends into each moment of your life. *Yoga Breathing* distills the secrets of this essential inner work into two complete home practice sessions designed to guide you, breath by breath, to greater vitality and health.

This is an excellent audio about tuning into the subtle feelings and adjustments that are necessary. Wonderful voice. Obviously coming from deep experience as both a practitioner and teacher.

I love this CD. It is very professional and well done. It brings simple concepts to life in easy to use instructions that have a dramatic impact on stress-relief, relaxation, and over-all health.

Very relaxing, just what I wanted

Nice CD

The title is Yoga Breathing but it is about focusing the mind and bringing forth the life force. I gave copies to my three adult sons.

Mr Freeman is just the very best, he is so knowledgeable. He is able to speak, and write, in ways that are easy to understand, and he discusses ideas that are very difficult at times, still you can grasp them. I am on disk one. His voice alone makes you relaxed and open. The breathing exercises I've done are excellent. I feel energized, happy and comforted somehow after.

I didn't like it because the instructions were to lie on the floor on my back. Getting up would be a big problem for my old joints.
