This book is a great intro for all of us to awaken your third eyes. It's possible for anyone to pick this up and learn right away, but I think beginners would benefit most from this book. It is a good thing that this book describes the signs to know when you are losing your third eye and what to do to get it back.

Interesting book.... I would like to congratulate the author of this book for this efficient work..

The book talks about tapping into the power of the subconscious mind where you are open to higher states of consciousness and awareness. If you want to learn more about the third eye this is the book to read. The book will help you know more about third eyes.
