Franko Map Reef Fish And Creature Guide

Customer Reviews

I love this laminated map of the dive spots in Roatan. We will be traveling there in September and this will be invaluable for snorkeling and diving on our own and with tours. I love the fish identification chart on the back...the pictures will really help me name what I am seeing!! The only thing I wish is that it was a little bigger so it would be easier to see and read....but the smaller size makes it easier to carry with us.

This Roatan dive map and reef creature "post card" is amazing. It is much bigger than an average sized one, and it has gorgeous pictures of the island itself as well as the creatures that inhabit it. It is heavy duty being almost of a laminate texture rather than card-stock. 30 inches tall, 42 inches wide, and 3mil lamination. the text isn't super easy to read... but I still really like it.

Shows the fish we saw on our dives and all the best dive sites on both sides of Roatan. Great when you are back on the both and showing the other divers

Not sure you can find this map when you get into the dive shops at Honduras, so my suggestion is to buy one here. The dive sites are not ALL listed, because each dive shop can add their own changes. Yet, the map offers a very good first step map to getting familiar with scuba diving. Put this into your log book, for reference.

Will use soon

Franko's maps rock!

Great for knowing areas to dive! The other side had a pic of all the different kinds of underwater life.
