## Customer Reviews

"The Ethics of Dissent covers a unique aspect of ethics in government, beyond what we agree are the values and obligations to law and management principles. It is concerned with the ethical dilemmas in which the bureaucracy has placed dedicated public servants and how they balance what is ethically right with conflicting rules, regulations, and administrative expectations. This, I believe, is the book's main strength: a unique view of ethical conflict and decision-making." -- Denis Hatch "The theoretical frame of The Ethics of Dissent is well done and evident throughout. This book is unique because it sheds light on a little recognized phenomenon while making clear that it is far more widespread than previously thought. Books that genuinely break new ground and do it well are very rare!" -- Guy Adams "The book's very readable style, case-study format, and Rosemary O'Leary's experience are all great strengths of The Ethics of Dissent. Students love the book." -- Alejandro Rodriguez

Rosemary O'Leary is the Edwin O. Stene Distinguished Professor at the School of Public Affairs

and Administration at the University of Kansas, following a 24-year career teaching at the Maxwell School of Syracuse University and the School of Public and Environmental Affairs at Indiana University -Bloomington. O'Leary is the author or editor of eleven books and more than 100 articles and book chapters on public management. She has won ten national research awards and nine teaching awards. She is the only person to win three National Association of Schools of Public Affairs and Administration awards for Best Dissertation (1989), Excellence in Teaching (1996), and Distinguished Research (2004). An elected member of the National Academy of Public Administration, O'Leary was a senior Fulbright scholar in Malaysia and in the Philippines, as well as an Axford Fellow in New Zealand. From 2003 to 2005, O'Leary was a member of the NASA's Return to Flight Task Group assembled in response to the Columbia space shuttle accident. She also has served as a consultant to the U.S. Department of the Interior, the U.S. Environmental Protection Agency, the Indiana Department of Environmental Management, the International City/County Management Association, the National Science Foundation, and the National Academy of Sciences.

The book helped me in my graduate course regarding ethics and public administration. The details for those ethical "dissenters" and the struggles they go through simply to provide us their stories are very engaging. Understanding what the public sector is and what that means for the rest of us not working in the public sector shows some of the struggles and hardships these workers can endure simply for wanting to do what they feel at their ethical core is "right". Whether you agree with the dissenters or not, this is a very interesting and captivating read.

An great consideration of dissent in government and the nebulous balance of values that occur ubiquitously in public service. A challenging look that offers a relatively balanced study on when dissenters in government are heroes and when they may be troublemakers.

Good overview of ethics in Guerilla Govt, brief, well written. Focuses mainly on Environmental examples, but generally good to apply to other policy areas.

Fast shipping. Good price. Tracking included.

Great book to help understand the concept of whistleblowing and how different agencies dealt with the disruption. Ethical or unlawful? You decide.

great easy to down load

Thanks
