About the Creator In 2002, Paul Krupin published The Magic Search Word series (Jobs, Scholarships, and Health). Using the rules he created in those books for searching and finding the best information on the Internet he received a patent in 2003. A little over ten years later he evolved the technology and came up with a way to pack a huge amount search power into a single click. He then incorporated the technology into several series of ebooks (book marketing, business marketing, health, travel and music) and for use in a diverse array of high value quality content electronic handouts.
