Not what I expected...

Ok this essential book is packed with knowledge, tips, discussions, theory and diagrams. Everything you need when growing plants, fruits or vegetables in a greenhouse or hydroponic system, organically or in urban farming. It's a complete guide handbook for both beginners and experienced growers. A step-by-step gardening guide on how to grow fruits, vegetables and herbs at home or commercially in greenhouses. It covers the most in hydroponic food production and gardening without soil especially when it comes to subjects like Hydroponics, Aquaponics, Self Sufficiency, Home Growing, Gardening, Horticulture and Homesteading. I really liked this book. This is a must-have. I also recommend you buying a crop journal if you want to have control over your seedlings, plants, fruits, vegetables and harvest. The complete hydroponic crop journal: How to monitor, control & refine your hydroponic conditions
