Customer Reviews

Bought after finishing the other book in this series and I enjoyed it just as much as the first! Puzzles are large and even when the numbers are close to each other you can still clearly see each number. Good directions and like the fact that they have colors so you can choose to use more than just one color making designs come out better than books that are all one color! Can't wait for the next book!

AAA+

I love these books! Very challenging, yet relaxing. NOTE: Dots are very very very small! If you have problems seeing little things, do not get this book.

I purchased these recently for our library makerspace in a middle school setting. While these are challenging, the kids LOVED them and asked regularly for new pages! I'm out now and need to order again.

my daughters It was a little hard for her but ok I liked it

So tiny I couldn't even see with magnifiers

I bought this for my wife as a gift and she loves it.

Excellent dot to dot
