Margaret Miller is the author and photographer of many books for children. Her Look Baby! series has been raved about in *Publishers Weekly* and *Parenting* magazine. She lives in New York City.

Adorable book. The moment my 10 month old son saw the baby girl on the cover he got a big smile on his face and wanted the book. I did not notice however how small the book was before I ordered it. It is about the size of my hands (albeit they are very big). Still very cute.

My 9month old likes it. The pictures are very clear and pretty. I like closing the book & playing peek a boo with him with the different pages. He thinks it's pretty hilarious.

This book is a favorite in our house. The opposite page of from the baby is brightly colored. The babies are adorable and the pictures are cute with the colors (I.e. Green Ring)

Love the photos and so do my grands!

This book is bright and has wonderful baby face pics, it just didn't end up being a favorite in our house. Our baby seemed to enjoy others more (such as "Hello, Animals! (Black and White Sparklers)" and the My First Bilingual Book-Colours. Also, for yellow, the color-noun combo used in the book is "yellow feather boa." The other color-noun combos were, for example, "orange flower", very basic. Using the color-adjective-noun combo, "yellow feather boa," seemed inconsistent with "blue hat," "purple glasses," etc.

This book is a great first book selection. Babies love babies, and this book captivated both of mine. A great gift for a baby shower or first birthday. The book has big close up face shots of other babies, and the little ones love it. Simple text inside.

Cute faces

Some of the baby faces freaked out my daughter. She cried at two of the babies -- one baby is screaming or yelling and the other has it's mouth open in a freakish way. My baby won't look at the book after a few tries.
